Try for Health

222 South Peoria St.,

Chicago, Ill., Oct. 7, 1902.

Eight months ago I was so ill

that I was compelled to lie on

down nearly all the time. My

stomach was so weak and ap-

pet that I could keep nothing on it

and I vomited frequently. I

could not breathe without great

pain and I coughed so much that

my throat became so raw and

red that I could not swallow

and I was so weak that I could

not get out of bed. I was so

ill that I was so weak that I

could not get out of bed. I

was so ill that I was so weak

that I was so weak that I

could not get out of bed. I

was so ill that I was so weak

that I was so weak that I

could not get out of bed. I

WORLD'S FAIR
SPECIAL DAYS

Events of Worldwide Importance Crowd
One Another on the Season's Pro-

gramme—Many Congresses and
Conventions to Meet.

Each of the remaining days of the
World's Fair season has a programme
filled with special events that offer ad-

ditional attractions for late visitors.

National and state governments, mu-

nicipalities, secret societies, trade or-

ganizations and college fraternities

have arranged to participate in the

special days allotted to them, and

thousands of persons will be drawn to

the World's Fair upon these occasions.

Missouri is to have an entire week at

the Exposition, and the Lumbermen

of America will be present for six

days. St. Louis day Sept. 15, will be

the day of the fair.

FARMERS' MONTH
AT WORLD'S FAIR

Biggest Department of the Great Ex-
position Ready for the Inspection of the

Army of Men Who Made Its
Creation Possible.

Now that crops have been or are be-

ing laid by, the farmer prepares for his

trip to the World's Fair, a treat that

has long been promised him and for

which he has patiently waited. No ex-

position has offered so many induc-

ements for the farmer's presence as this

one at St. Louis, nor has any previous

exhibition given the prominence and

space to the subject of agriculture.

August and September are doubtless

the farmer's months at the Exposition,

for it is at this season that the agricul-

tural exhibits are the freshest and best.

Products of the new crops are pouring

into the booths from every state in the

Union, and additions are constantly

being made to the gorgeous display.

Headquarters for visiting farmers

may be found in every state section of

the great Agriculture Palace, but for

their special convenience there has just

been completed a Grange House, situ-

ated in the south end of the building.

It is equipped with a reception room,

ladies' retiring rooms and check rooms,

where parcels may be left free of

charge. Here will be kept a list of

moderate priced rooms to aid visiting

farmers and their families in procuring

accommodations.

The largest building on the grounds

is the Palace of Agriculture, covering

twenty acres, while the Palace of Hor-

ticulture near by covers about a third

as much space. These two immense

structures are filled with exhibits of

the farm, garden and orchard of the

most extensive and elaborate character,

every state in the Union and most of

the principal countries of the world

being represented.

CHARLOTTE'S LIFE STORM.

Some interesting details are pub-

lished as to the condition of the

unhappy ex-Empress Charlotte, the

widow of the unfortunate Maximilian

of Mexico. The Brussels corre-

spondent of the Newcastle Chroni-

cle states that the ex-empress ap-

pears at last to have reached the end

of the acute stage of her long mar-

tyrdom. It has lasted forty years

in almost one continuous series of

scenes of nervous excitement and

passionate emotion of the most pain-

ful kind. All these years of cruel

mental torture have been spent at

the Belgian royal country house of

Bonchout, which the present king

of the Belgians, the ex-empress's

brother, allotted for her residence

on her reason giving way. For three

years now she has lived in a state

of almost rational calm. Her health

is good, and hopes are entertained

that the lifelong storm is past—

London Globe.

The Value of a Side Remark.

A. S. L. Shields, Philadelphia's

well known criminal lawyer, once

turned a case in his favor by the

happy inspiration of a side remark.

George S. Graham, then district

attorney of the Quaker City, was

making his plea to the jury. Sud-

denly pointing to the prisoner, he

shouted, "He has been in politics

too long to be honest!"

He paused for a moment to let

the full significance of the words

sink home, when in a quiet but

penetrating voice Mr. Shields, lean-

ing toward the speaker, said:

"You've been in politics some lit-

tle time yourself, haven't you,

George?"

The jury shook with laughter.

Every housekeeper should know that if

they will buy Defiance Cold Water Starch

for laundry use they will save not only

time, because it never sticks to the iron, but

because each package contains 10 oz.—one

full pound—while all other Cold Water

Starches are put up in 5-pound packages,

and the price is the same, 10 cents. Then

again because Defiance Starch is free from

injurious chemicals. If your grocer tries to

sell you a 12-oz. package it is because he has

a stock on hand which he wishes to dispose

of before he puts in Defiance. He knows

that Defiance Starch has printed on every

package in large letters and figures "16 oz."

Demand Defiance and save much time and

money and the annoyance of the iron stick-

ing. Defiance never sticks.

QUESTION ANSWERED.

Yes, August Flower still has the

largest sale of any medicine in the civil-

ized world. Your mothers and

grandmothers never thought of using

anything else for indigestion or bil-

iousness. Doctors were scarce, and

they seldom heard of appendicitis,

nervous prostration or heart failure,

etc. They used August Flower to

clean out the system and stop fer-mentation

of undigested food, regulate the

action of the liver, stimulate the

nervous and organic action of the sys-

tem, and that is all they took when

feeling dull and bad with headaches

and other aches. You only need a

few doses of Green's August Flower,

in liquid form, to make you satisfied

there is nothing serious the matter

with you. You can get this reliable

remedy at all druggists. Price 25c

and 75c.

BEAUTIFUL WINONA

With the opening of the season at Win-

ona Lake, May 16, the sale of excursion

tickets over the Pennsylvania Lines to that

attractive resort in Northern Indiana begun.

Well Named Paint

The practical painter says,

the man who storms at

the weather because the

paint on his house won't

weather the storms,

could live a life of sun-

shine by using

Patton's

SUN-PROOF

Paint

Patton's Sun-Proof Paint gives double the service of all white-

lead or any ordinary paint. It is made of the most perfect com-

bination of paint materials to stand the severest trial the sun and

weather can give it. Guaranteed to keep its gloss and wear well

for five years.

When Visiting the World's Fair Ride on

the Ferris Wheel.

The great expositions held during the

last fifteen years have produced two mar-

velous examples of engineering and con-

structive ability. One of these, the Eiffel

Tower, was designed and built by a French-

man at Paris for the Exposition of 1889;

the other, the Ferris Wheel, was designed

and built by the late Geo. W. G. Ferris for

the World's Columbian Exposition at

Chicago, in 1893.

A brief resume of the dimensions and

description of the Ferris Wheel may be in-

teresting. The wheel is built on the

hydraulic principle, with four support towers

215-16 in. apart. The wheel is 250

ft. in diameter and stands 274 ft. high.

In reality it is two wheels securely braced

together. Between the centers of these
